

```
package arrays;

public class duplicatevalue {

    public static void main(String[] args) {
        int num[]= {2,3,1,4,5,3,4};
        System.out.println("Duplicate elements :");
        for (int i=0;i<num.length;i++) {
            for(int j=i+1;j<num.length;j++) {
                if(num[i]==num[j]) {
                    System.out.println(+num[i]);
                }
            }
        }
    }
}
```

output :

Duplicate elements :  
3  
4
