

```
package collection;

import java.util.PriorityQueue;

public class priorityqueue {

    public static void main(String[] args) {

        PriorityQueue<Integer> pq = new PriorityQueue();

        pq.add(1);
        pq.add(50);
        pq.add(2);
        pq.add(5);
        System.out.println(pq);
    }

}
```

Output:

[1, 5, 2, 50]
