

```
package arrays;

public class remove_dup_unsorted {

    public static void main(String[] args) {
        // TODO Auto-generated method stub

        int a[] = {12,10,12,8,15,10,20,30};
        System.out.println("The remaining elements after
elimination:");
        for(int i=0;i<a.length;i++) {
            int cnt=0;
            for(int j=0;j<a.length;j++) {
                if(a[i]==a[j]) {
                    cnt++;
                }
            }
            if(cnt==1) {
                System.out.print(""+a[i]+",");
            }
        }

    }

}
```

Output:

The remaining elements after elimination:
8,15,20,30,
