```java
package Stringprograms;

public class print_required_output {
    public static void main(String[] args) {
     String s="Hello World1234567890 Hi";
     System.out.println("The numbers
are:"+s.substring(11, 21));
    }

}
```

Output :

The numbers are:1234567890
