```java
package file_io;

import java.io.File;

public class list_files_specificfiles {

    public static void main(String[] args) {
        File file=new File("C:\\Users\\lenovo\\Desktop");
        File[]s1=file.listFiles();
        for(File s:s1) {
            System.out.println(s);
        }
    }

}
```

Output :

```
C:\Users\lenovo\Desktop\.metadata
C:\Users\lenovo\Desktop\arun
C:\Users\lenovo\Desktop\Bankingapplication
C:\Users\lenovo\Desktop\Chess.lnk
C:\Users\lenovo\Desktop\desktop.ini
C:\Users\lenovo\Desktop\Eclipse IDE for Java and DSL Developers
- 2023-06.lnk
C:\Users\lenovo\Desktop\Hotstar.lnk
